

Addendum #1
ITB # 50-22 Potable and Reclaimed Water Meters
September 16, 2022

NOTICE IS HEREBY GIVEN that the following addendum serves to provide clarification and to answer the questions received on ITB # 50-22, Potable and Reclaimed Water Meters.

Question 1: I reviewed the above referenced bid document and was surprised to see that ultrasonic meters are not an acceptable meter solution for the city. I see the document sites the low flow accuracy of PD meters, but would argue that ultrasonics are just as accurate and would appreciate at least the opportunity to submit a proposal for the city's consideration. I have attached meter specification for what they are worth.

Answer to Question 1: The City currently has a contract in place for ultrasonic water meters. This solicitation is strictly for the mechanically driven types.

End of Questions and Answers

All other dates and terms and conditions remain the same in this Invitation to Bid.
