

Addendum #2
ITB # 23-20, Stainless Steel Manhole Inserts
02/25/2020

NOTICE IS HEREBY GIVEN that the following addendum serves to provide clarification and to answer the questions received on ITB #23-20, Stainless Steel Manhole Inserts.

Please note that Corrections/Additions have been made to the Bid document (copies of corrected pages are attached):

Remove: Page 21, BID PRICING sheet from original solicitation
Replace: REVISED BID PRICING sheet, attached as page 2 of this addendum

Please add these new pages to your copy of the Invitation to Bid and remove the earlier versions of the same pages issued prior to this Addendum # 2, dated 2/25/20.

Additional Clarification: After further review it has been determined that the sizes and quantities reflected in Addendum #1 were not accurate. The REVISED BID PRICING sheet, located on page two (2) of this addendum now has a column to reflect the associated manhole name. Specification sheets for each manhole are attached to this addendum as pages 3-5. Additionally, USF 420 (22") is the most common sized manhole that we have and will be purchased 80% of the time. The other two sizes, 23" & 23.5" are expected to evenly share the remaining 20% of the orders.

Question 1: May we have the castings or ID/OD dimensions for line items #1 and #3?

Answer to Question 1: *The specifications for Item No.1 can be located on page three (3) of this addendum and Item No.3 can be located on page five (5).*

Question 2: When is the expected first order date?

Answer to Question 2: *The City anticipates an order of manhole inserts within the first two (2) months of the contract.*

REVISED BID PRICING

Pursuant to all the contract specifications enumerated and described in this solicitation, we agree to furnish **stainless steel manhole inserts** to the City of Clearwater Public Utilities Department at the price(s) stated below. The City estimates one thousand three hundred (1,300) manhole inserts to be purchased annually in various sizes. Prices should include all freight charges.
