

Addendum #1
RFQ #09-20, Design Consulting Services – Clearwater Police Department
District 3 Substation
November 1, 2019

NOTICE IS HEREBY GIVEN that the following addendum serves to provide clarification and to answer the questions received on RFQ #09-20, Design Consulting Services – Clearwater Police Department District 3 Substation.

Question 1: We would like to ask for clarification on Tab 5 of the Clearwater Police Department District 3 Substation RFQ #09-20. On page 11, the instructions for Tab 5 indicate that a “detailed work plan, including a tentative schedule to complete the feasibility study” is needed along with detail of “hours per task by personnel/position.” Our understanding is that the feasibility study was already completed by Long and Associates and included with this RFQ package. Can you please clarify exactly what you are looking for in the Tab 5 response?

Answer to Question 1: *Feasibility study reference in Tab 5 is incorrect. Tab 5 should read, “Provide a detailed work plan, including a tentative schedule to complete the final permitted design documents including estimated number of hours per task, by personnel/position, and durations for design and construction phases.”*
