**Addendum #1**  
**RFP# 09-21, MARINE VESSEL REMOVAL, TOWING, STORAGE,**  
**AND DISPOSAL SERVICES**  
**12/1/2020**

---

---

**NOTICE IS HEREBY GIVEN** that the following addendum serves to provide clarification and to answer the questions received on RFP #09-21, Marine Vessel Removal, Towing, Storage, and Disposal Services.

Question 1: For a firm price we will assume that the derelict vessel has sunken and will cost accordingly, but what should we base towing distance on?

**Answer to Question 1: For derelict vessels that have sunk in Clearwater's jurisdictional waters and are approved for disposal, towing for disposal would be to the Seminole Street Boat Ramp, located at 198 Seminole St., Clearwater, FL 33755.**

Question 2: For towing, what distance should we base the price on?

**Answer to Question 2: The distance would be a flat rate from anywhere within City of Clearwater limits to the city transient boat slips located at 69 Bay Esplanade, Clearwater, Florida 33767 and/or the location of the vendor's storage facility.**

Question 3: Storage, what size of area should we base price on?

**Answer to Question 3: The City does not have a storage facility size requirement. Vessel storage in this context is synonymous with impoundment. Proposed storage/impoundment site(s) locations must be included with Vendor's proposal. Price should be based on the site(s) distance from Clearwater and the site(s) fee schedule for both wet and dry storage.**

*End of Questions and Answers*

**Note: The Q&A period for this solicitation has now closed. No further questions will be answered.**
