

Addendum #1
ITB # 57-20, Liquid Propane Gas Tanks
September 29, 2020

NOTICE IS HEREBY GIVEN that the following addendum serves to provide clarification and to answer the questions received on **ITB # 57-20, Liquid Propane Gas Tanks**.

Please note that Corrections/Additions have been made to the Bid document (copies of corrected pages are attached):

Remove: Exhibit A – Bid Pricing

Replace: **REVISED Exhibit A- Bid Pricing**

Remove: BID PRICING, page 23

Replace: **REVISED BID PRICING, Page 23**

Question 1: Reviewing the Exhibit A addendum, we have a question regarding the DOT tanks (items # 5 and 6): The capacities are listed as 200 and 420 gallon respectively. We believe the specs should read 200 pounds and 420 pounds per DOT 4BW240.

Answer to Question 1: The capacities for the DOT tanks, items 5 & 6, should be in pounds. These items were corrected under the “REVISED – Exhibit A-Bid Pricing” and “REVISED BID PRICING, page 23”.

Question 2: Is this a all or nothing bid.

Answer to Question 2: In REVISED Exhibit A– Bid Pricing, bidder(s) are not required to bid on all items. It is the City’s intent to award the bid in the best interest of the City, which could result in an award to multiple vendors or a consolidated award not solely based on price but also in consideration of the number of vendor(s) being selected.

Question 3: What department heads will make the final decisions?

Answer to Question 3: Refer to INSTRUCTIONS–EVALUATION, i.21, EVALUATION PROCESS, page 6 of the solicitation document.

Question 4: The Asme Tanks are made to order and are subjected to market volatility. So therefore we can only guarantee the pricing for 30 days. Will this be an issue to re-quote every time you need to order tanks? Also there are long lead times to consider when placing a order.

Answer to Question 4: Refer to MILESTONES, 4. PRICES, page 21. This solicitation is to obtain fixed pricing for LP Tanks in the sizes and estimated quantities listed in REVISED Exhibit A- Bid Pricing. Additionally, the City is aware that shipments of LP tanks may be subject to longer than average lead times. Refer to DETAILED SPECIFICATIONS, 4. DELIVERY, 5, page 18.
