

Addendum #1
RFI # 04-22, Unified Communications and Telephony
10/27/2021

NOTICE IS HEREBY GIVEN that the following addendum serves to provide clarification and to answer the questions received on Request for Information (RFI) #04-22, Unified Communications and Telephony.

Question 1: Is it ok to meet with Staff to demonstrate solutions while this Request for Information (RFI) is open?

Answer to Question 1: Currently the City is soliciting information only and meetings / demonstrations will not be permitted at this time.

Question 2: On Page 5, section 2 / BACKGROUND / PBX, what does “PE” mean?

Answer to Question 2: PE references Peripheral Equipment (equipment at the remote location that interfaces with the central PBX switch).

Question 3: How many physical locations would the Unified Communication & Telephony would service?

Answer to Question 3: The unified communications and telephony would service between fifty (50) and seventy (70) locations.

Question 4: [Can the City provide] a breakdown of the number of users per physical location?

Answer to Question 4: The number of users at each facility varies from one (1) to four hundred (400) depending on location. However, the average number of users is approximately fifty (50). The specific logistics are immaterial as all facilities are located within a twenty-five (25) square mile area in a single area code and time zone.

End of Questions and Answers

All other dates and terms and conditions remain the same in this Request for Information
